

PAYMENT UPDATE & LOWER PRICES

Happy March! We're so glad you're here. First and foremost, we are dedicated to helping you stay consistent on your wellness goals. Recently, the peptide and GLP-1 industry has hit a bit of a rough patch. New rules and increased pressure have made it incredibly difficult for businesses like ours to use standard payment processors. To ensure we can continue providing you with the products you rely on without interruption, we have been forced to find new solutions.

For the time being, our remaining reliable payment options are Cash App and Wise. We know this might be an extra step in your busy day, and we deeply value your flexibility. To show our appreciation for your understanding, **we have lowered our prices across the board!** Our goal remains to keep your peptides accessible, affordable, and successful. We are working tirelessly to resolve this, and we deeply appreciate your patience and continued trust in EZelev8.

HELLO
Spring
